4. NOTABLE FEATURES, HISTORICAL SIGNIFICANCE AND DESCRIPTION OPEN TO PUBLIC <p>This is a tiny frame house with an even smaller log addition on its right end. It is one and a half stories high and three bays wide and one room deep. It has a gently sloping A-roof. On such a tiny house there are curious Federal style refinements. The two dormers on the front roof are hooded, as is the fashion in this area and are decorated with pilasters and delicate moldings. To the right of this house is a tiny two bay square 1-1/2 story wing constructed of log and now covered with clapboard. This was probably the earlier part of the house and the main wing was added later.</p> <p>The structure is interesting and notable for its very small size and very elaborate dormers.</p> <p>Willard H.
